Implementation (Section 8).

We strongly recommend that in considering this section, you also consider the initial consultation on the development proposals published together with this draft. They represent the specific proposals by which para 8.4 might be implemented, namely the provision of a new surgery building, about 25 homes, additional parking, new cemetery space, a new allotments site and improvements to the Village Hall, to be brought forward through a Neighbourhood Development Order in parallel with this Neighbourhood Plan. Please tell us what you think of the section on Implementation, whether you agree with the overall approach, and any other points you wish to make.
